BIOBUILDER TEACHER TRAINING

Co-taught by BioBuilder's Founder and Executive Director, Dr. Natalie Kuldell, and one of BioBuilder's expert high school teachers, our workshops combine classroom, laboratory, and design activities that are both accessible and inspiring.

You'll leave with ready-to-teach lessons that bring engineering into your biology classrooms, labs, or science clubs.

Registration is open for
MODULE 1: What is Synbio/Eau That Smell and
MODULE 2: Teaching Biodesign/What a Colorful World
Modules must be taken sequentially

Participants receive:

- A copy of the BioBuilder textbook
- Access to our learning platform for asynchronous content
- A BioBuilder lab kit from Carolina Biological Supply
- An invitation to "office hours" on Zoom to continue learning from BioBuilder and other teachers around the world

Program cost is \$400 per module with discounts available from for multiple teachers from one school.
